The New Suits For Fall

Modes simple, yet beautiful, prevail in the early showing of fall suits. Straight, slender lines are favored and the reception accorded garments of this type in the past, speaks for them universal approval. There is such a wide variety of cleverly designed models, and so diversified are the methods of trimming, that individuality is assured for all. The favored fabrics are velour, bolivias, duchets, oxford cloths, mixtures, broadcloths and velvetees; and such rich practical shades as gray, brown, taupe and blue are prominent in the displays. Your desire for a suit, beautiful yet practical, can be gratified from our selections.

Fall Coats For the Children

Just as much care and thought has been given the designing and making of these coats as is given to the garments of the "grown ups." This is evident in the stylish lines and trimmings; in the details of finish of every coat in our assortments. Not only are they superb in style, but the durable woolen fabrics insure warmth on cold days, and long satisfactory service throughout the coming months. Note how attractively we've priced them.
